Separate recyclables – even on vacation

RECYCLABLES

The glass containers are for all glass bottles for which no returnable deposit is paid and for completely empty glass packaging only. The glass must be sorted by colour (white, brown and green) and disposed of in the designated containers. For example: Bottles of wine, sparkling wine, small glass bottles, such as perfume or medical bottles or other packaging glass, such as sauces. No ceramics.

The paper bin is for all packaging made of paper, cardboard or carton without food residue. Please do not use it for waste covered with foliage, metals, speciality paper such as baking paper, thermal paper (sales receipts) or photo paper.

For all organic waste. For example: vegetable, fruit and salad waste, coffee grounds and tea bags, garden refuse. Doesn't belong in the biowaste container: cooked food leftovers or ashes.

The yellow bin is only for used and completely empty packaging which is not made of paper, cardboard, carton or glass. For example: Aluminium, tin and plastic lids such as polystyrene packaging, tin cans, aluminium foil or juice and milk cartons. No batteries or other hazardous substances and electronic devices.

Residual waste container

RESIDUAL WASTE

In the residual waste container belongs anything that could not be separated before. For example: Nappies, hygiene articles and sanitary waste or cigarette butts.

Looking for more sustainable offers for your vacation at Lake Constance? Visit us: www.echt-nachhaltig.de

Please dispose your waste properly and ask your host about the correct separation of recyclables.
